1 what size it was. In other words, it wasn't --
2 it didn't come out in 5,000 tablets. It came
3 out as 500s or 100s.

4 Q. Okay. And so let's just say, for
5 example, a store is ordering one bottle of 500
6 tablets, that's their monthly average, and then
7 they switch and they order five bottles of 100
8 tablets, would that show up on your greater than
9 99 percent average 12-month report?

10 A. It would if they were only
11 ordering one bottle of the 100s previously.

12 Q. Well, I know. My hypothetical was
13 they were ordering one bottle of 500s.

14 A. But then you said you were going
15 to switch to 100s.

16 Q. To five bottles of 100s. So the
17 tablets are the same, but now instead of one
18 bottle, we've got five. Would that show up on
19 your report?

20 A. Yes.

21 Q. Okay. And why is that?

22 A. Because I think previously they
23 were getting one bottle of 100. Now they're
24 getting five bottles of 100.

1 Q. Okay. So the report would say
2 their average is one bottle for the last year
3 and this month they ordered five bottles, you've
4 got to look into it?

5 A. We have to -- yes, that would be a
6 case where I knew that we had different sizes
7 and before they would -- they switched sizes.
8 They switched size bottles.

9 Q. Okay. Conversely, if a pharmacy
10 was ordering, let's say, two bottles of 100
11 tablets and that was their average for the last
12 12 months, okay? Is that fair example to start?

13 A. Yes.

14 Q. All right. And then they switched
15 the next month and they -- instead of getting
16 two bottles of 100 tablets, they get two bottles
17 of 500 tablets, would that show up on your
18 12-month average rolling report?

19 A. Yes, because previously they
20 didn't order any of the 500s. Now they're
21 ordering two. So their history was different.

22 Q. Okay. So it would say -- it would
23 say your previous 12-month on a 500-tablet
24 bottle is zero and now you've ordered two?

1 A. Correct.

2 Q. And that's greater than
3 99 percent?

4 A. Correct.

5 Q. So it wouldn't be based on the
6 tablet numbers, it would be based on the
7 bottle's size?

8 A. Yes.

9 Q. Okay. Was there any other unit
10 that was tracked by that report that would cause
11 it to generate other than bottle size?

12 A. Not to my knowledge. It's been a
13 while since I looked at that report.

14 Q. Okay. After those two letters
15 that we looked at from the DEA, do you believe
16 that DDM complied with every obligation
17 underneath the Controlled Substances Act?

18 A. I do. I still think that our
19 system, our SOMS system, looked at -- it wasn't
20 just the 12-month rolling average. It was --
21 you know, that was part and parcel of the plan,
22 the program.

23 Q. Okay.

24 A. We did have a prospective in

1 regards to the six-week average if Jill was
2 looking at that, but that was still part of the
3 program. It wasn't something that I look at,
4 but it was still something that was looked at by
5 humans, by people, a set of eyeballs on it.
6 So -- and if she had any questions about it, she
7 would either contact the stores or contact me
8 or -- you know.

9 Q. Just to be clear, I don't want to
10 know what Jill did because obviously Jill did
11 that, so --

12 A. All right.

13 Q. Yeah. But just after looking at
14 those two letters and all the things we
15 discussed, it's still your position that DDM
16 complied with the obligations that it had under
17 the Controlled Substances Act?

18 A. I believe so.

19 Q. Okay. All right. And just so
20 that we're clear, I want to just confirm, DDM's
21 suspicious order monitoring policies and
22 procedures were never put in writing, correct?

23 A. Correct.

24 Q. Okay. And those policies and

1 procedures were not effective at deterring or
2 preventing completely theft of hydrocodone from
3 stores, correct?

4 MR. JOHNSON: Objection.

5 A. I think that -- you're talking
6 about distribution level versus store level
7 here, right?

8 Q. I'm just asking you whether DDM's
9 suspicious order monitoring policies were
10 effective at preventing --

11 A. Yes.

12 Q. -- theft.

13 A. Yes.

14 Q. Okay. But you agreed with me
15 earlier today that there were several instances
16 where controlled substances were stolen from a
17 DDM pharmacy, right?

18 A. But -- yes, but the system
19 caught -- the systems in place caught whatever
20 was missing based on our monthly reports, based
21 on the rolling reports, based on everything that
22 we reported.

23 Q. Right. They caught it after the
24 fact, but they didn't prevent it, right?

1 A. On -- in a theft situation, we
2 caught it after the fact.

3 Q. And DDM has never reported a
4 single suspicious order to the DEA or the Ohio
5 State Board, right?

6 A. Correct.

7 Q. And DDM has never identified or
8 reported a single possible suspicious order
9 either, correct?

10 A. Correct.

11 Q. Okay. All right. Let's look at
12 Exhibit -- I think we're on 5.

13 MR. JOHNSON: 4 maybe.

14 MR. MULLIGAN: The last letter was
15 4.

16 MR. JOHNSON: You're right. I'm
17 sorry.

18 - - -

19 (DDM-Nameth Exhibit 5 marked.)

20 - - -

21 BY MR. MULLIGAN:

22 Q. Okay. So this is an e-mail with
23 an attachment. The e-mail is DDM53874, and the
24 attached document is DDM53912. And I'll just

1 tell you, this is an e-mail from after you
2 retired. But I mostly just want to know if you
3 know what this attachment is. It's the -- the
4 attachment is -- the title says "Shipments
5 Greater Than 99 percent of Average Movement."
6 And then it says "Controlled Drugs."

7 And the e-mail says, "Attached is
8 our suspicious monitoring report for the last 12
9 months."

10 Does that look like -- is this the
11 report that you would have reviewed -- I mean,
12 obviously the date is different but ...

13 A. I didn't see it in this form.

14 Q. Okay.

15 A. But, you know.

16 Q. This contains the information that
17 you would have reviewed on your -- on the report
18 that you got?

19 A. Yes.

20 Q. Okay. That's all I've got for
21 that one.

22 Let's do Exhibit 6.

23 Actually, no. Let's skip that
24 one.

1 - - -

2 (DDM-Nameth Exhibit 6 marked.)

3 - - -

4 BY MR. MULLIGAN:

5 Q. This is DDM11545. And this is a
6 letter from Pete Ratycz to the U.S. Department
7 of Justice dated November 13, 2001.

8 Do you see that?

9 A. Yes.

10 Q. Okay.

11 MR. JOHNSON: Can you give him a
12 second to look at it?

13 Q. I mean, if you need time to read
14 it, feel free, but I'm just going to ask you
15 some questions about it. We're going to walk
16 through it.

17 It says, "Dear Sirs: Please be
18 advised on November 6, 2001 a pharmacy
19 technician, Darlene Cottle, was apprehended
20 selling controlled substances to an undercover
21 officer outside our pharmacy located at -- in
22 Bellbrook, Ohio."

23 Do you see that?

24 A. Mm-hmm, yes.

1 Q. Do you recall that instance?

2 A. Vaguely.

3 Q. Okay. Do you know who Darlene

4 Cottle is?

5 A. I believe she is a pharmacy tech.

6 Q. Okay. Could you pick her out of a

7 lineup?

8 A. No.

9 Q. Okay. And so if you go down

10 further, it's talking about the drugs she had on

11 her. And it says, "However, a complete audit of

12 the suspected drugs indicate significant

13 shortage."

14 Do you see that?

15 A. Yes.

16 Q. Okay. And so this would indicate

17 that this store -- and I'm not sure what the

18 store number was, but they had a significant

19 shortage of their drugs, which was identified

20 after this pharmacy tech was caught selling

21 controlled substances to an undercover officer

22 just outside the pharmacy, right?

23 A. Yes.

24 Q. Okay. Is that concerning to you?

1 A. Yes.

2 Q. And why is that?

3 A. Well, several reasons. One is
4 that you're getting controlled substances out
5 into the public and the use of unprescribed
6 medication. Two is the employee. You never
7 want to see one of your own employees stealing.
8 So, you know, for those two reasons
9 specifically.

10 Q. Do you know -- well, if you look
11 down at the bottom, it says that the audit --
12 the drug audit was started on August 31, 2001.

13 Do you see that at the bottom?

14 A. Yes.

15 Q. But then the letter to the DEA is
16 dated November 13, 2001.

17 Do you see that?

18 A. Yes.

19 Q. Do you know why this issue
20 wouldn't have been reported to the DEA earlier
21 than -- it looks like it's about a month and a
22 half later -- actually, two and a half months
23 later?

24 A. Because they probably did a drug

1 audit. The store did their drug audit on
2 August 31st. And so they use that as a starting
3 point. And then count the number of medications
4 that were delivered under that particular --
5 those particular drugs they're looking for or
6 that were confiscated. So they have to go back
7 to a starting point.

8 Q. If you were going to do an audit
9 to see if there was a shortage of drugs, how
10 long would that take?

11 A. From beginning to end?

12 Q. Yeah.

13 A. It depends on the quantity, but
14 you'd have to probably -- it may take several
15 days. It may take -- it may take a week.

16 MR. JOHNSON: I'm going to have to
17 object. I don't know if you just read
18 it wrong or maybe I'm reading it wrong.
19 It says that the theft took place on
20 November 6th, and the letter is dated
21 November 13th. So it would have only
22 been a week?

23 MR. MULLIGAN: Is that an
24 objection?

1 MR. JOHNSON: Yes.

2 MR. MULLIGAN: Okay. Is it a form
3 objection?

4 MR. JOHNSON: Yes.

5 MR. MULLIGAN: Is it a form
6 objection?

7 MR. JOHNSON: Yes.

8 MR. MULLIGAN: Okay. Well, I was
9 asking about August 31st, which is at
10 the bottom of the letter.

11 MR. JOHNSON: I know you were
12 but -- okay. Well, they wouldn't have
13 known about the theft until --

14 MR. MULLIGAN: But that's
15 testimony, Tim.

16 MR. JOHNSON: Okay. So it's not a
17 mistake. I just thought you were making
18 a mistake.

19 MR. MULLIGAN: No. No. Thank
20 you, though. All right.

21 BY MR. MULLIGAN:

22 Q. Okay. So if an audit took a
23 couple days, and you started on August 31st, do
24 you have any understanding why this report
